Setting Students up for Success

Students write in several genres, give and receive feedback, conduct investigative research, and meet guest speakers. Co-op and work experiences are available for second-year students.

Leadership & Scholarship Opportunities

Students have a variety of scholarship, writing competition, and publishing opportunities, including Young Playwrights Festival and National Writers Series scholarship competitions. Students can lead through the National Technical Honor Society or Student Council.

Student Support & Guidance

- Career Tech staff teach and reinforce positive work ethic in all students.
- Attendance and academic progress is monitored to guide students toward individual growth and career planning that will establish a pathway to a meaningful life.
- Seminars are provided on college planning, financial aid and scholarship opportunities.

Job Training & Experience

Career Tech programs offer all students a chance to:

- Gain hands-on training
- Use state-of-the-art technology
- Demonstrate leadership, workplace readiness and ethics
- Participate in internships, job shadows, work experience, or paid co-op experience
